

HIPAA Solutions: Achieving Compliance

December 12—13, 2002

Washington State Convention & Trade Center
800 Convention Place
Seattle, WA 98101

*This training seminar is co-hosted by the
Workgroup for Electronic Data Interchange (WEDI) Foundation and
Community Health Information Technology (CHITA).*

Overview

Nationally known WEDI faculty and healthcare industry experts from the Pacific Northwest will address topics related to the Administrative Simplification requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) to prepare you and your organization for upcoming deadlines and to provide options and strategies for achieving compliance.

Join us to learn more about the benefits of HIPAA implementation, privacy and security requirements, developing HIPAA policies and procedures, transaction and code set requirements, compliance timelines, performing a gap analysis, HIPAA solutions, and available resources and tools. In addition to a HIPAA 101 training session, there will be intermediate and advanced level presentations for those organizations moving forward with implementation efforts.

The HIPAA Readiness Forum will feature training focused on documenting implementation efforts, pre-emption, and self-testing vs. third party certification related to transactions and code sets.

In addition to exceptional training opportunities, network with healthcare industry leaders, providers, payers, health plans, standard setting bodies, clearinghouses, business office managers, compliance officers, representatives of government agencies, consultants, and vendors.
